Dear Parents,

The Macarthur Life Education Centre mobile classroom will be visiting the school from Wednesday 29th May to Thursday 30th May 2013.

Life Education is a positive health and drug education programme which will also include a new component of Cyber Safety for the primary classes. Each class will visit the mobile classroom; Kindergarten to Year 2 for a 1 hour session. Year 3 to Year 6 for a 1-1/2 hour session. The van is equipped with exceptional electronic aids, for example, “Talking Brain”, TAM (Transport Anatomical Mannequin) and our body system modules. The unique classroom is designed for informality and spontaneity and establishing trust between educator and students. The sessions are an exciting and often magical learning experience. Harold the giraffe (their mascot) is very popular and the students look forward to seeing him each year.

Workbooks are included in the cost of the visit, so that class teachers can follow-up and integrate the programme into the primary school curriculum.

*The cost for the visit is just $2.00. BHP Billiton is funding each student for the other $7.00.*

Souvenirs will be on sale again this year from the van.

*There is a free parent session this year on Thursday 30th May 9.15-10.00.*

R Tomlin         R Paterson
Principal         coordinator

---

I give permission for my child ______________________Class____________
to attend the Life Education Program to be held at the school between Wednesday 29th May and Thursday 30th May at a cost of $2.00.

*I enclose $2.00 as payment*
